CAMERON, MILAM COUNTY TEXAS, THURSDAY JULY 28, 1960

12 PAGES TODAY

CROWNED QUEEN — Miss Marilyn Hughes, Cameron, received the Milam County Farm Bureau crown from MFB President O. G. Tumlinson. At left, looking on is runnerup Miss Gloria Marak. The annual contest was conducted by the Milam Farm Bureau at Cameron's First Methodist Fellowship Hall.

Marilyn Hughes Named FB Queen

Miss Marilyn Hughes, daughter of Mr. and Mrs. Stanley Hughes, Cameron, was crowned Milam County Farm Bureau queen last Thursday night.

She will represent Milam County in district queen competition in Cameron August 27.

Runnerup was Miss Gloria Marak, daughter of Mr. and Mrs. John Marak, Jr., Rt. 2, Buckholts. She is a 1960 graduate of Yoe High School.

Miss Hughes, 17, is a senior at Yoe High School where she is a member of the Nurses Club and YHS Band.

Other contestants were: Virginia Abel, Joyce Fuchs, Claire Gielchrist and Marianne Jones.

District winners will compete for the State FB Queen title in November. The Texas representative will go to the American Farm Bureau Convention in December in Denver.

A large crowd of parents and members of the Milam Farm Bureau organization attended the contest Thursday night at the First Methodist Fellowship Hall.

Judges based decisions on poise, appearance and personality.

Farm Bureau County President O. G. Tumlinson crowned Miss Hughes queen and presented her with a cash prize.

The six contestants represented Cameron, Marak, the Buckholts area and Thorndale.

School Count Lower County To Have 4 High Schools In Next 10 Years

County School Supt. H. D. Maxwell Wednesday predicted that Milam County will have only four high schools in the future, but did not predict how soon consolidations would reduce the total to that number.

He said in a talk before Cameron Rotarians that he believed that Thorndale, Cameron, Rockdale and Milano would maintain high schools in a period of about 10 years of shrinking dependent school districts.

He said his office will serve seven dependent districts next year after losing San Gabriel's eight-grade system to Thorndale in a consolidation this year.

Maxwell cited the voluntary approval of a special tax to maintain an eight-grade white school at Gause, which was voted this spring.

Dependent districts directed by Maxwell's office include: Davilla, Marak, Maysfield, Buckholts, Sharp, Burlington and Gause.

Independent school districts in Milam County are: Cameron, Rockdale, Thorndale and Milano.

Maxwell's talk indicated the realism with which educators face prospects of smaller school systems and the loss felt by communities seeking to keep their schools as the center of community life.

He said the county school board recommended consolidation of San Gabriel with Thorndale when average daily attendance fell below the two-teacher level.

He listed programs conducted by his office to assist improvements in county schools such as:

Special courses for reading and science instruction improvement.

Library displays.

He noted that many graduates of smaller county high schools are scoring successes in higher education in Texas A & M, Texas University and other state colleges, and universities.

Building Permits Head For \$1-Million Mark

SHUSH . . . I HEAR A BUSH RATTLING! Seems like that's the look on the face of Sgt. Eugene E. Marak of Cameron, tank commander in Company C, 3rd Medium Tank Battalion, 112th Armor, 49th Armored Division, Texas Army National Guard. The unit is undergoing rugged training at North Fort Hood during its 13th annual summer encampment. Here, Sgt. Marak's unit is in the middle of a reorganization mission after attacking a hill. Cameron's unit was in the field the first week having training maneuvers, and returned to their tent city the second week for weapons firing. The division will head toward their 76 home stations throughout the state on July 31.

City Police Report One Minor Accident

Cameron police officials reported one minor accident this week involving vehicles driven by Emil Frank Vaculin and Steve August Mueck.

Damage was slight to both vehicles, a 1956 Ford driven by Mueck and a 1951 Chevrolet pickup driven by Vaculin.

Neither man was injured.

National Guard Completes Camp

The officers and men of Milam County's National Guard unit, Company C, 3rd Medium Tank Battalion, were completing their final week of training along with other units of the 49th Armored Division at summer camp at North Fort Hood, and were finding their schedule a crowded, fast-moving one.

The Guardsmen were busy on the ranges firing with pistols, .45 cal sub-machine guns and rocket launchers, and going over the infiltration and close combat course. Tank crews were engaged in firing their .50 cal machine guns and 90 mm tank guns on the tank tables.

Company C members spent most of their first week of camp out in the field. They moved out to the Royalty Ridge area on Monday afternoon and bivouacked there until Friday noon. The tank crews engaged in several war game exercises over the rough and hilly terrain and on the occasional creek bottoms, getting their first real experience with tank tactics under simulated combat conditions.

NMH Fund Totals \$48,000

The \$50,000 minimum goal for Newton Memorial Hospital neared completion this week, but officials said increased building costs would require an additional \$10,000 in local contributions.

Total contributions and pledges Wednesday were about \$48,000, according to the fund thermometer in front of NHM Fund Headquarters in Cameron.

Officials said it is apparent that the \$50,000 total will be reached and out-of-town money will be forthcoming.

However, \$2,000 more is needed to complete the minimum goal and an additional \$10,000 is needed to meet additional costs, officials said.

Bids ranging from \$300,000 to

PICTURED ABOVE is Carlyn Ann Young of Rockdale who placed fourth in the 49th Division sweetheart contest held at North Fort Hood last week. She represented Co. C, 3rd Med. Tnk. Bn and CCA.

The Guardsmen returned to their base camp on Friday and held their usual parade on Saturday morning in which the whole 49th Division participated.

One of the highlights of the first week of camp for Company C members was the selection of its entry as one of the five finalists in the 49th Armored Division sweetheart contest. She was Miss Carlyn Ann Young of Rockdale and placed fourth. Miss Young, sponsored by SP4 Howard S. Drummond, was selected as a finalist by the movie actor, Donald O'Connor of Hollywood. She represented Company C, the 3rd Medium Tank Battalion and CCA.

A blue-eyed brunette, Miss Young is a graduate this year of Rockdale High School. She and the other finalists in the sweetheart contest were honored at a dance at the Fort Hood Service Club on Friday night where Major Gen. John L. Thompson was present and they were on the reviewing stand with him when the 49th armor passed in review on Saturday morning.

Officials at Milam Grain Co. and Wilson Grain & Elevator both reported about 20 carloads by mid-week.

The crop is expected to run less up about the same production of 1959.

Officials said that a number of maize growers put in extra cotton acreage this year with additional cotton allotments allowed Milam County.

have already pledged or donated in the fund drive. They include many businesses and individuals from Cameron contributors from other parts of the county.

Donations of any amounts are appreciated and important to successful completion of the drive, officials said.

The need for additional local funds delayed plans to close the fund headquarters in downtown Cameron. It will be open about 10 more days.

Construction of the hospital would replace the frame buildings now used by Newton Memorial Hospital. The one-floor, four wing structure will be built north of the present facilities on W. Fourth St.

Total To Match '57 Record Figure

Cameron building permit totals for 1960 will exceed \$1 million by the end of the year with proposed construction plans already approaching that figure.

It will be the second time in four years that Cameron construction figures have exceeded the million mark. Total construction in 1957 was over one million when the city water and sewerage plants and the federal housing projects were completed.

Last year a total of \$92,236 in building permits was issued by the City, preceded by a \$568,478 total in 1958.

The bulk of the improvements is being invested by local businesses and residents.

Projects pushing the building totals toward the million-dollar

mark include: Mondrik's Super-for 1960 will exceed \$1 million by the end of the year with proposed construction plans already approaching that figure.

Thousands of dollars have already been spent in remodeling work on concerns and homes throughout Cameron.

Improvements have been made on about 25 businesses and several dozen homes this year. A number of new residences are under construction at present.

Paving in the Lamar area, about five blocks of new paving and curbing, is underway this week. And the city is working on a plan to streamline Cameron's drainage system.

Chamber Manager Jack DuBois said this week that numerous inquiries have come to his office "wondering what Cameron was apparently getting in the way of new industry."

"We know of no industry planning a surprise move into Cameron, but the Chamber executive board is calling a special session to renew efforts for new industry", DuBois said. "The industrial committee is processing leads regularly for possible location here."

The upward swing in building here was approaching boom proportions. Cameronites were voicing optimism with the announcement of the recent projects and continued improvements in the downtown area.

Already dedicated and built is Cameron Field, designed for Little League and Babe Ruth summer baseball. And the school is seeking bids for an enlarged pressbox at Yoe Field.

All these local developments accompanied a report from C. B. Thames, district highway engineer, Bryan, who recently told a Chamber of Commerce gathering that Milam County is receiving \$2.5 millions in road funds of his total \$14 millions budget this year. The Bryan District includes nine Central Texas counties.

First Maize Totals 40 Carloads Here

Cameron maize buyers reported about 40 carloads brought in by prestate Wednesday in the first week of the county maize harvest.

Officials at Milam Grain Co. and Wilson Grain & Elevator both reported about 20 carloads by mid-week.

The crop is expected to run less up about the same production of 1959.

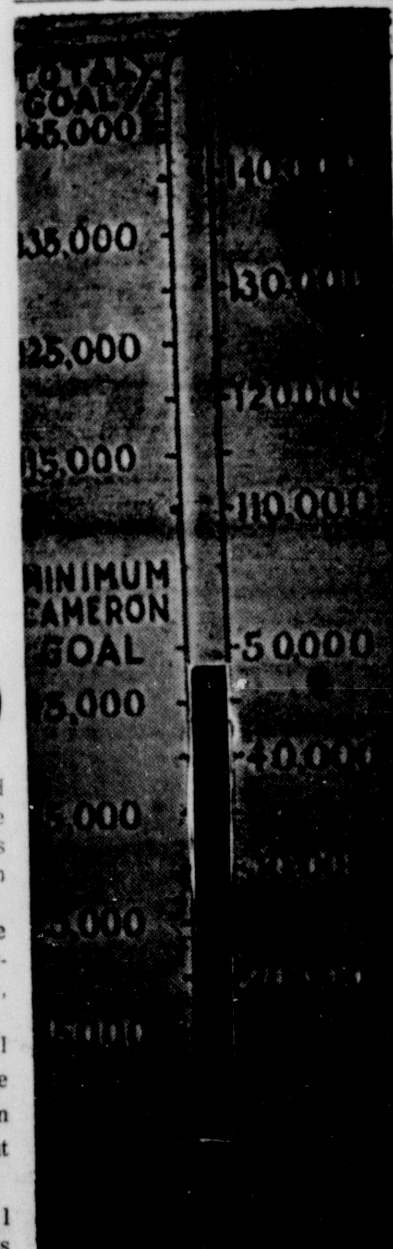

Officials said that a number of maize growers put in extra cotton acreage this year with additional cotton allotments allowed Milam County.

150 4-H's Take Part In Milam Encampment Day

By Robert W. Hoermann
Ass't Milam County Agent

Heavy clouds and thunder showers threatened to disrupt the 1960 Milam County 4-H Encampment, July 19, at Ledbetter Park in Cameron.

One hundred fifty adults and 4-H's took part in games, swimming, craft and square dancing. The day was climaxed by a ham supper prepared by adult leaders.

Leadership for the camp was furnished by Junior 4-H leaders. Taking part in the leadership were: Johnnie Ray Richter, Joyce Fuchs, LaNell Moraw, JoAnn Hollas, Jeanette Richter and Pat Titworth. Cameron; Second, Ed Smitherman, Hall and Arvell Jungmann, Buckholts.

Winners in the Junior Craft Division were: First, Janet Hughes, Cameron; Second, Ed Smitherman, St. Louis, Mo.; Third, Kathy Abel, Sharp.

Senior Division Craft winners were: First, Sandra Barta, St. Anthony and Third, Margaret Vansa, Marak.

Wayne Hillman placed First in the Junior swimming contest; second place went to Warren Hillman, Ad Hall, and Third place tie to Edmond Tepera, Marak and Madelyn McClaren, Cameron.

Senior Swimming Awards went to: First place, Dan Davis, Sharp; Second to Bobby Walker, Ad Hall; Third place, Pat Titworth, Cameron and Fourth place, Larry Hillman, Ad Hall.

Speed was prominent in the foot racing contest. First place winners were: Janet Laffere, Sharp, Joe Paul Mueck, St. Anthony, Dennis Jistel, St. Anthony, Margaret Vansa, Marek, Robert Moraw, St. Anthony and Benard Jungmann, Yarrington.

Carroll Wayne Glaser, Buckholts and Benard Jungmann, Yarrington served as life guards during the swimming periods.

Pat Titworth, Cameron gave a swimming demonstration to the campers.

Each 4-H club member attending helped in making the camp successful.

Long Season, 15 Limit On Doves

AUSTIN — Hunters seem to be well pleased at the bonus dove shooting they will get during the 1960 season, according to the executive secretary of the Game and Fish Commission.

The North Zone season this year will start at 12 noon, Sept. 1, and close at sunset October 30. The South Zone will open October 7 and close December 2, except in the counties where white-winged dove shooting will be permitted three days earlier.

The white-winged dove season will be for three days, September 9, 10, and 11. This season will be from 2 p. m. until sunset.

There also will be an increase in bag limit on mourning doves for the upcoming season. The shooter will be permitted to take 15 per day and have 30 in possession.

White-winged shooters, who may also kill mourning doves at the same time, will be permitted to have 10 white-wings and 5 mourning for the first day of hunting. They may have 20 mourning doves and 10 white-wings in possession after the second day.

Generally, the Texas quail season will begin December 1, under the general laws. The Commission will set the quail season in regulatory authority counties at its meeting October 7. At that time, biologists will know more about the supply of birds.

Another drastic change in the hunting laws will be legalizing spike bucks in counties under regulatory authority.

Farm Tours Show Crop Conditions

The county crop tour jointly sponsored by the crops committee and Cameron Chamber of Commerce was well attended last week. The group left Buckholts at 7:30 a. m. and visited the farms in Little River bottom south of Buckholts.

Cotton crops of the Gilbert and Mendoza families farming the Judd Davis land were observed. Adjoining these fields was cotton farmed by Wilburn Beckhusen on the Pace farm. Cotton varieties, planting dates, use of fertilizer, insect control, and insect identification were studied in these fields.

Next stop was the Pace home where the group was shown through the Pace home and viewed, from the second floor windows, fertilizer test on Wilburn Beckhusen's maize crop. The group was shown the adult fly of the sorghum midge that lays its eggs in the blooms of the maize head resulting in a barren type seed head. Smut was observed in several varieties of maize, indicating very little resistance to smut in all varieties studied.

Next stop was at the John Davis farm, Norman Valley, also farmed by Beckhusen. Cotton varieties were studied as well as insect control work.

The next farms visited were the Joe and Herman Mueck farms so

Texas Poultrymen Schedule Meet

COLLEGE STATION — The 37th annual meeting of the Texas Poultry Improvement will be held in Fort Worth, August 23 - 25, in Hotel Texas.

Marshall Miller, extension poultry marketing specialist, says the program will emphasize the progress made and the future needs of the Texas poultry industry.

Turkeys and queens will get the spotlight on opening day. President C. N. Thurnbeck, National Turkey Federation, Forest Lake, Minn., and Federation Vice President Robert McPherrin, Sunnymead, California, will be featured speakers on the morning program. The 1960

Egg Council on Wednesday afternoon will follow the Lawrence presentation, Miller said.

Wednesday's morning session will feature eggs W. J. Moore, Bryan, who is vice president of both the Poultry and Egg National Board and the Texas Egg Council will discuss "The Big Job Ahead in Egg Promotion."

Broilers will get top billing on Thursday morning. A panel moderated by F. Z. Beanblossom, extension poultry marketing specialist, and consisting of H. I. Miller, USDA's Poultry Division, Wash., D. C.; Frank Sisco, Nacogdoches; A. L. Myrick, Fort Worth and C. D. Calhoun, Tyler will discuss the effects of federal inspection on the Texas broiler industry. A discussion during the afternoon will deal with the possible creation of an over - all poultry industry organization.

Texas 4-H Council Workshop Scheduled

COLLEGE STATION — Some of the finest youngsters in Texas will meet on the campus of Kilgore College, Kilgore, August 2-6. They are the delegates to the sixth annual Texas 4-H Council Workshop. The boy and girl council members from each of the 12 Texas extension districts will be participants.

In making the announcement, Floyd Lynch, state 4-H Club leader, said the workshop is an opportunity for members of the Texas 4-H Council, and selected adults who work with them, to increase their understanding of the organizational structure of 4-H Club work and their role in it.

During the workshop, the council members will serve as active members of the Texas 4-H Council by developing programs and handling annual business. Lynch said that each member will participate in a small work - group in order to learn to become the kind of democratic citizens described in the 4-H pledge - a person who thinks clearly and believes deeply in himself and others, and whose actions thereby benefit everyone concerned.

4-H Club Notes

By Robert W. Hoermann
Ass't Milam County Agent

Carroll Wayne Glaser and Arvell Jungmann will give a horticulture demonstration at the boys District camp in Brownwood on Monday, July 25. The trophy for the horticulture demonstration was won two years ago by Milam county.

Twenty seven 4-H members and adults have indicated they will attend the camp from Milam county.

Farm & Ranch Safety Week is July 24 - 30. During this week is a good time to check your lightning rod system. That's the best way to make sure lightning strikes out if it hits your farm and it's important to keep it in good working order.

"Lightening causes almost one out of ten fires on farms," according to National Fire Protection Association records. If your farm isn't protected by a system, now is an especially good time to in-

stall one. Look for a UL "Master Label" on the system you intend to install, to make doubly sure of its effectiveness.

Check your lightning rod system and cover these points: Examine all conductors for breaks. Repair any loose connections.

Inspect the system's grounding - this is best done by a lightning rod expert. While you're at it, make sure that metal fences and other large metal objects on your property are properly grounded.

Check your TV antenna for proper grounding too. Is it firm and stable? A chimney is a mighty poor place to fasten a TV antenna. The wind vibrates it, soon there are cracks in the chimney lining, and the cracks can leak sparks and heat. The possible result: fire in combustible roof timbers.

A good lightning rod system is only as good as its maintenance. Look after your carefully and continuously.

NEW PROGRESS in TEXAS

Through INDUSTRIALIZATION...

New industries mean new payrolls, new jobs, new people, new growth for a community. Industrial development is a basic requirement for a balanced, prosperous economy in Texas.

Toward this end, Texas Power & Light Company maintains a staff of industrial specialists who assist industrial foundations, Chambers of Commerce and other local organizations in their industrial development activities. These industrial specialists have available the facts about markets, raw materials, industrial sites, water, labor and other factors concerning this area in which industries seeking new locations are interested. It is their business to assist local groups in bringing new industries to the "Texas Bright Spot."

This is another example of free enterprise at work. This Company, a business-managed, investor-owned, tax-paying electric utility company, pledges continued help and support in the industrial growth of the area it serves.

Larry Orr, Bride Take Colorado Trip

The Denver Assembly of God Church in Houston was the setting for the Saturday evening wedding of the former Miss Sarah Jo Hayes and Larry Gene Orr. After a wedding trip to Colorado the couple will make their home in Lake Charles, Louisiana until the groom finishes two more years in the Air Force.

Mr. and Mrs. Oliver L. Hayes, 1134 Hoffman Street, Houston are the parents of the bride and the groom is the son of Mr. and Mrs. William R. Orr, 1027 Gazin, Houston.

The Rev. Paul Ansohn officiated at the nuptials.

The bride's father gave her in marriage. She wore a white peonadase gown etched with cut outs of chantilly lace. Her veil, train length, was of hand made lace and she carried a bouquet of white orchids and white roses.

The bride wore a heirloom necklace of turquoise and carried her mother's wedding handkerchief.

Attendants were Miss Judith Hayes, sister of the bride, maid of honor; Sharon Laywell and Mary Alice Duncum, cousins of the bride of Cameron, bridesmaids; kora Orr, sister of groom, Houston, Jr. bridesmaid; Kay Clore, cousin of bride Houston, flower girl; Michawl Michalka, Cameron, Ring bearer; Billy Bob Orr, brother of the groom, Houston, best man; James Orr and Sammy Orr, Houston, cousins of the groom, groomsmen; David Hays, Troy Henry, Deamon Hayes, Billy Thomas and Don Ansohn, ushers.

The bridesmaids dresses were planned from the bride's necklace and of the same color turquoise.

The bride's parents were hosts for the reception at their home.

WW II Veterans Have Two Years To Receive Loans

World War II veterans have two more years in which to obtain Veterans Administration - guaranteed home, farm and business loans, P. J. Mims, manager of the VA Regional Office in Waco said today.

Under the new law just signed by the President, both World War II and Korean Conflict veterans can continue to apply for direct loans from the Federal government if they live in designated rural areas where GI loans are not obtainable from local lending institutions, Mims said.

The new law authorizes Treasury Department advances of \$150 million in each of the next two years of this direct loan extension program.

New expiration date for the guaranteed loan program for World War II veterans, and for the direct loan program for both World War II and Korean veterans is July 25, 1962.

Korea veterans may continue to seek VA - guaranteed loans through January 31, 1965, through previous legislation. The GI loan interest rate of 5 1/4 percent remains unchanged by the new law.

Mims pointed out that the new law also will require that earnest money deposits veterans make be placed in trust accounts so that they will be safeguarded in case the builder becomes insolvent. Another provision will allow VA to guarantee a loan so long as the application is received prior to the new terminal date.

City Investing \$1,000,000

A million dollars worth of construction in Cameron serves notice to Central Texas that this city is on the move.

One can search the length and breadth of this area and hardly match the confidence reflected by recent civic and private developments.

Included in the totals of new building either begun, on the drawing boards or recently announced are: a supermarket, a drive-in bank and expanded bank facilities, expansion of bowling alleys, a new church, final planning on a new hospital and a new department store building.

Not since 1957 has there been one million dollars in construction in Cameron. And that was primarily public projects with \$392,890 in city water and sewerage plants and federal housing projects costing \$452,410.

It shows that 1960 is the year of action,

a million dollars worth of foresight, primary of which is local investment for local improvements.

One can look around and share the pride of improvement that is already fact. It is real community development, something one can broadcast to the world.

Tell them about the new ballpark, the remodeled fronts, all of the current projects. Talk about Cameron, town of proud heritage, solid perspective and formidable future.

We are proud to cite this confidence, as proud almost, as the people who are putting it on the line to show Central Texas how small cities are built and maintained.

A million dollars worth of congratulations to all those concerns and people who are helping to assure Cameron a row in the front ranks of Central Texas leadership.

Mr. K's Russian Roulette...

Haughty Mr. Khrushchev again has overstepped his mark in making issue of the latest plane incident.

UN Ambassador Lodge has come up with reproof of Soviet allegations that the American RB-47 was over Soviet territory when Russian fighters shot it from the skies.

Russian UN representatives have withdrawn to silence when faced with the U. S. challenge to test the truth of their charges.

Perhaps the court of world opinion will sometime be convinced that Khrushchev is seeking world favor in the third orbit... neutralist nations or those new nations of Africa and Asia.

It appears that some semblance of order will also come out of the Congo catastrophe as Lumumba has come to the UN to seek first hand assistance and advice from the West.

His threats of accepting proffered Soviet aid or Communist Chinese troops in recent weeks have been compromised by UN action.

Both the Congo and American plan inci-

dent fit the current Soviet approach to power politics. With complete disregard for peace, even in a cold war, Russia throws her weight in multiples of promises and headlines. Naïve new nations seek the promises.

Russia keeps them only if control of trade or influence in internal affairs of these new nations are allowed.

This step up of colossal anti-West charges coincides with the political conventions in this country. Khrushchev is doing his best to intimidate our internal affairs.

He may have united world opinion against Russia for the time by typical disregard of truth, in any fashion, in both international crises. And he is forcing United States opinion away from any compromising policy toward Russia, regardless of political persuasions.

How he can maintain this game of Russian roulette without somehow blowing out somebody's brains, quite possibly his own, is beyond comprehension. He is surely straining to maintain internal Russian influence or edging to the brink of disaster.

TEXAS LAWYERS Capt. John Coffee Hays, Ranger

"As a mounted soldier the Ranger has no counterpart in any age or country!"

The real Ranger — not the gun-fanning, hip-shooting tough guy of fiction — has been recorded in Texas history as a quiet, deliberate, gentle person who could gaze calmly into the eye of a murderer and with unhurried courage ride straight up to death. Such a man was John Coffee Hays. He was a frontier surveyor for the Republic of Texas at 21, a Captain of Rangers at 23, a famous Indian fighter with the Army and a Major at 25. The defeat of the Comanches at Enchanted Rock and Bandera Pass, the Plum Creek fight and the battle of Salado are a part of his record. During the war with Mexico, 1846-48, Hays commanded the 1st Reg. Texas Mounted Volunteers and distinguished himself at Monterrey and Mexico City. Mustered out, a 31-year-old veteran with the rank of Colonel, Jack Hays next served as a commissioner to settle the boundary dispute between Texas and the United States over the New Mexico Territory.

After that, it seems as if Texas became too quiet for this "quiet, deliberate, gentle person." During the Gold Rush days of '49, Col. Hays led a caravan to California to begin the second half of a kind of life that has no counterpart in any age or country. The state honored his name with the creation of Hays County, in the Texas Hill Country.

Texas lawmen have always served their state well... have Texas industry and commerce. Providing pay-... and community revenues, one industry has also... the refreshment of moderation. Increased Water Supply Needed

By Vern Sanford

AUSTIN — If the brackish, "hard as bricks" water common to many parts of West Texas can be made suitable for domestic use, Texas' available water supply would be materially increased.

To this end, the State Water Board has approved a mineralization research project to be carried out by the board, University of Dallas and Texas Electric Service Co. Board will put \$20,000 into the work.

Board engineers say total demineralization is not necessary and that it is possible the process can be accomplished at an economically feasible cost.

In another move to increase available water, the Board has set a series of hearings on cancellation of water appropriation permits that have not been used. First 10 of the permits to be reviewed are scheduled for hearing Sept. 22. Some of the permits date back as far as 1918.

DPS ASKS BOOST

With more traffic to patrol and more crime to fight, the Department of Public Safety will ask the next Legislature for money to increase its staff.

Col. Homer Garrison Jr., DPS director, has presented a budget calling for \$16,461,260 for 1962 and \$17,720,166 for 1963. This compares to \$12,420,290 allocated to DPS for this year and \$13,353,272 for the new fiscal year beginning Sept. 1.

Requested increases would allow the addition of 200 new highway patrolmen, 10 Texas Rangers, four narcotics agents and four intelligence agents.

Supporting his request, Garrison made this grim forecast: 29,000 more major crimes will be committed in Texas in 1963 than in 1959. This is apparently a continuation of the trend which saw major crimes rise 45 per cent in the past five years, rising to 175,851 in 1959.

PAROLE EXPANSION SOUGHT
Texas Board of Pardons and Paroles has a plan for saving the state some money.

But to do so, the Board says it will need some more money to invest in enlarging the state's staff of parole supervisors. Since the paid parole system got under way in 1953, the Board says it has saved the state \$3,000,000. It costs that much less to pay a supervisor or to keep tab on a parolee than it costs to board and clothe a prisoner and make relief payments to his family.

The Board feels it needs a 70-man parole staff, rather than the present 40 — to do the job. For this, the Board is asking an appropriation of \$1,466,819 for the next two years. This is an increase of \$480,863, or nearly a half-million dollars, over the present bienn-

ium's appropriation. Board contends this extra investment will save the state \$2,500,000 in prison costs, plus offering a better chance of returning more men to useful, law-abiding places in the community.

OIL FLOW UNCHANGED

Texas Railroad Commission has announced and 8 day producing pattern for the Texas oil industry in August — the same as for July.

Daily allowable will be 2,630,969 barrels a day.

A majority of producers appearing before the Commission said there is still an oil glut in Texas and continued restriction is needed to protect the market.

Commission action came in the wake of a declaration by UT's Bureau of Business Research director that oil is no longer king in Texas. Even with foreign import limits, said Dr. John Stockton, supply out-runs demand so that production has had to be held down to 8 to 12 days a month for the past two years.

Section foresees no improvement Texas, he said, must develop new industries to bolster its economy or lose out to more dynamic areas.

I Give You Texas

By Boyce House

Bill King is manager of the agricultural department of the Fort Worth Chamber of Commerce, assistant manager of the Fat Stock Show in Fort Worth, secretary of the Fort Worth Farm and Ranch Club, past Kiwanis Club president and a raiser of miniature pinchers — or maybe it's boxers; anyhow, they're dogs and one costs a good deal of money.

All of this is so you'll know who Bill King is.

He has advanced a suggestion that a book ought to be written on "How It Started", to explain the origin of expressions that we use every day.

For instance, everybody has said, "Jack has more of this — or that than Carter had oats." Who was Carter? He was a farmer in the Old South a long time ago who was asked how his crop was coming along and he declared that his oats were so abundant they were breaking down the fences.

Then everybody has spoken of such — and such a situation as being "Hobson's choice." Hobson ran a livery stable in England a long time ago and he rotated the use of his horses. The animal whose turn was next, he placed in the first stall and a customer could select any horse he wanted provided he took the one in the first stall.

And then there is "A Garrison finish." As a boy, I got the idea that it meant the garrison of a

besieged fort sallied forth and gave the besiegers hail Columbia. But there was, many years ago, a great jockey by the name of Garrison and he always put on a rousing finish to a race.

However there was also a boxer named Garrison a long time ago who was a favorite with the fans. No matter how badly he had been outpointed in the preceding round, he came rushing out of his corner for the final three minutes and hit his opponent from all directions. Usually the decision went to the other man, whereupon the crowd booed. They had forgotten the first nine rounds and remembered only that "Garrison finish".

Then there is the expression, "the real McCoy." Kid McCoy was a fighter in middleweight and light heavyweight circles rather early in the century. He was the very unusual combination of a superb boxer and heavy hitter.

There were fighters who used his name to get matches in smaller cities and on one occasion a local man was matched with an opponent who claimed to be Kid McCoy. The local boy took a lot of punishment the first round. In his corner at the end of the round, his manager asked, "Is he a phony?" The fighter replied, "No — he's the real McCoy."

Well, I've made a start toward writing that book that Bill King suggested. He has generously offered to give me half of whatever I can make from it.

See Texas First

In 1874, Chief Quanah Parker, son of the famous Cynthia Ann Parker, led some 700 picked Comanche, Cheyenne, and Kiowa warriors in battle against 28 brave frontiersmen and buffalo hunters in the Texas Panhandle.

He was defeated in this attempted "Alamo" style massacre by the small band of men that included the famous Bat Masterson and Bermuda Charlie.

This "Battleground of Adobe Walls" now rests peacefully just thirty miles north of Borger.

There are no dinosaurs in Texas, but we do have proof that the prehistoric monsters were here at one time.

Just travel twenty miles west of Cleburne to the town of Glen Rose, and you can see for yourself.

There you will find fossilized dinosaur tracks along the beautiful Paluxy River.

They have a fine specimen on exhibit downtown too.

You'll enjoy staying in Glen Rose, as it is a well-known vacation and health resort famous for its mineral water.

I see by the papers where a woman filed suit for divorce because her husband was careless about his appearance. He hadn't shown up in nearly two years.

LITTLE RIVER PHILOSOPHER

Most Businesses Could Be Run From Underground, But Not Farming

Dear editor:

There's a move on in the world that has me worried. It's the theory that to be safe in this nuclear warfare age, everything has to go underground.

It's a fact, I read only last night that it's possible that all homes some day will be built underground. Why not, the argument went. We've already found out buildings don't need windows, you can air-condition them the year around, so why not build houses underground? Eliminate all the costs of style and outside architectural appearance, the need for painting, re-roofing, etc. Just build them out of concrete, cover them up with dirt, turn on the air-conditioning, and be cool in summer and warm in winter. Not even any lawns to mow.

Moreover, we've already got underground munitions manufacturing plants, underground airports for bombers, underground launching sites for guided missiles, underground government offices for emergency use, why only last week they launched some guided missiles from under water via submarine.

Now I've been thinking about this, maybe it is possible to live underground, to keep all the grocery stores, drygoods stores, highways, filling stations, churches, football fields, schools, etc. below ground level, at considerable initial expense, I'll admit, but what's money against survival?

But it has just occurred to me that there's one occupation that can't be put underground, namely, farming.

Consequently, I can foresee the day when everybody else is living safely and snugly underground, while us farmers are up on top exposed to the hot sun and Russian fall-out.

This is a prospect on which I

do not look with favor. Going to the added expense not only of keeping a high-priced tractor running, but also of equipping it with radar and a geiger counter and a lead-lined radiation-safe cab, plus an anti-aircraft gun, will be more than a farmer can stand, regardless of how much help both parties are offering him during the next few months.

Farming is lonely enough as it is, but the thought of us being up here on top of the ground plowing while the rest of you are down there safe and carefree in the ground, telling Russia and China to blast away, is highly unpleasant. It is something which will not only get all the inefficient, marginal farmers off the farms, but most of the efficient ones too.

Can't they think of some other way to run the world?

Yours faithfully,
J. A.

June Savings Bond Sales Are \$69,823

"Savings bond sales through June 1960 totaled \$69,823", Henry Siebman, Chairman of Milam County Savings Bonds Committee reported today. "Our county has now reached 88.5 per cent of its 1960 goal of \$380,000."

Sales in Texas for the first six months of 1960 were \$80,671,012 which is 48.7 percent of the state goal.

"Never before have United States Savings Bonds been so attractive to investors and small savers alike," Siebman said today in commenting on the one-half per cent increase in interest rates on old and new Series E and H Savings Bonds.

Most Fishermen Don't Eat Their Fish

By Vern Sanford

According to a recent survey, two-thirds of the people who fish never eat fish. When you stop to think about it, that's not too surprising. In the first place, fish is brain food. People who eat fish have large, well-developed brains. And people with large, well-developed brains don't fish.

It's that simple.

Kidding, of course. But we gotta admit that we've wondered more than once what we were doing out in a boat on a hot, blistering, summer day, getting a whole of a burn and landing not one keeper.

But what about the fisherman who does catch them, and doesn't eat 'em? He has a problem too. But it's a different one.

His problem is how to get rid of them.

Our Pilgrim Fathers solved this problem by burying a dead fish in a hill of corn. It made good fertilizer and the corn grew tall and bountiful.

But who's going to take time to hunt up a cornfield today?

Some fishermen try to palm off their catch on friends and neighbors.

Services Conducted For Mrs. Pairett

Funeral services were held Monday at 2 p. m. at the Phillips & Luckey Chapel at Rockdale for Mrs. Fannie Pairett, 78, who died in a Rockdale hospital Sunday morning.

Mrs. Pairett was born November 30, 1881 and lived in Rockdale the last 21 years. The Rev. Milton Pogue officiated with burial in the Val Verda cemetery.

Survivors include two sons, D. L. Pairett, Temple and Charles M. Pairett of San Antonio. Three daughters, Mrs. Bertha Underwood Pasadena, Miss Beatrice Pairett, Rockdale and Mrs. Oscar C. Cook, Von Ormy. Also 12 grandchildren and 6 great grandchildren.

Marek - Burns Funeral Home are in charge of arrangements.

Services Held For Emil Balusek, 56

Funeral services for Emil Ludwig Balusek, 56, of El Maton were held at St. Peter's Catholic Church in Blessing at 9 a. m. July 19.

The Rev. John Matecha officiated followed by burial in the St. Peter's Catholic Cemetery.

Balusek, who had been a resident of El Maton for the past 34 years died at his home July 17.

Survivors include his wife, Mrs. Angeline Balusek of El Maton; his step mother Mrs. Rosa Ann Balusek of Brookshire; four daughters, Mrs. Rosemary Foltys, Miss Susan Ann Balusek, Miss Evelyn Balusek all of El Maton and Mrs. Mary Ellen Jekel of Orchard; two sons, Raymond of Pasadena and d Emil L. Jr. of El Maton; one sister, Mrs. Annie Ondrusek of Sealy; two brothers, Anton of Galveston and Joe of Freeport and four grandchildren.

Balusek was a member of the Knights of Columbus, the Catholic Workman and the KZT Lodge.

Pallbearers were Tom Havel; Joe Saha, Louis Saha, Joe Lucas, Edward Dornak, George Orsak and Alfred Kopecky.

However, it doesn't take most folks long to learn that a dead bass, lugged around all day on a stringer until it is as stiff as a board, is poor competition for a tantalizing T-bone steak.

So, fishermen who don't eat fish must find other ways to dispose of same.

Odd Methods of Disposal

We heard about one fellow who stuffed his fish in a corner mailbox, when nobody was looking. But that's not a very satisfactory method. Besides, it's illegal.

Then there was the fellow who checked his in at a bus station - then threw his check away. That was in bad taste.

Read not so long ago about a fellow who couldn't get a loan from the local bank. It made him so mad he rented a safety deposit box, put a dead fish in a paper bag and deposited same in the bank box, then and there. He was a stinker. And so was the fish!

Don't know that he ever got his loan, but I do know that it wasn't but a few days until the bank started looking for him.

There are lots of fishermen, who don't eat fish, who just fish for the fun of fishing.

Any true sportsman, if he doesn't plan to make good use of his catch, turns them loose. He eases them gently into the water, after carefully removing the hook, so as not to injure them in the least.

He sees to it that they are put back into the water, to grow larger, for other sportsmen to enjoy.

Same Applies to Gulf Fishing

Just the other day I talked to a local fisherman who had been to the Gulf for the week - end. He and his party of four landed at least 50 King Mackerel. That's a lot of fish!

When we commented that he could look forward to some wonderful eating, he said, "Oh, we didn't bother to bring any back. When we got done fishing, we just dumped the entire lot back into the Gulf."

Each of those Kings had been giggered and subdued. Of course, all of them were dead.

What a waste of food!

A Kingfish, properly prepared, is one of the best eating fish in the Gulf.

Same is true of the Sailfish, especially when smoked. But it is seldom so considered.

A Ling is as good as a catfish, in our book. Some say it's better. So is the Warsaw - and the Jewfish.

Believe it or not, even the Ribbon Fish is regarded as good eating by some, especially when filleted, buttered and wrapped in dough - and cooked like Flounder.

There are lots of good eating fish in the Gulf of Mexico, besides Red Snapper, Redfish, Croaker, Pompano, Snook, Sheepshead, Speckled Trout and Flounder.

Just why didn't that fisherman

bring these Kings back to land and give them to some tourists, or local sightseers? Why didn't he turn them to some ice house or locker plant, to be presented to some orphanage? He had enough fish to feed 100 kids.

The answers is that he was lazy, wasteful and inconsiderate of others.

You can poke fun at the various means of disposing of fish. But the true sportsman will see that his catch either is returned to the water, alive, or he will make sure that some good use is made of them.

In the final analysis it boils down to a lack of respect for nature.

Dymke Leads Owls To Win Over Colts

Bob Dymke hurled one hit ball and scored his team's only two runs in pacing the Owls to a 20 margin over the Colts.

Robert Woodum singled in the 3rd inning to account for the only Colt bingle.

Dymke doubled in the second inning and came home for the first run of the game. He walked in the 6th and scored the nights last tally on a bashed by McWilliams.

The losing pitcher was Eugene Taylor and his catcher was Woodum. Allen Boyer caught for Dymke.

Rogers Boy Receives Air Force Commission

At Graduation and Commissioning Exercises held July 16 at Webb Air Force Base near Big Spring, Bruce H. Harbour of Rogers received his bars as a Second Lieutenant in the United States Air Force Reserve. His bars were pinned on by his mother, Mrs. B. F. Harbour, who with his father, Supt. B. F. Harbour of the Rogers Public Schools attended the ceremonies.

Harbour, who graduated from Baylor University in May with the BBA degree in banking, had been in the AFROTC for four years.

There were 183 cadets in the month's training program, with seven receiving their commissions as second lieutenants and the others to be college seniors in 1960-1961.
